

# AVOIDING AI: ADOBE ACROBAT

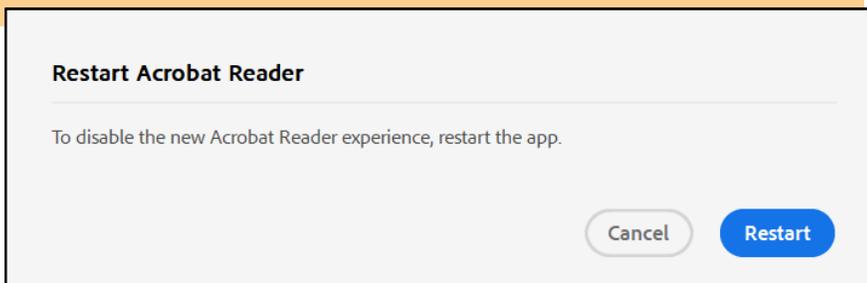

Adobe Acrobat's popular PDF-reading software is full of aggressive integrated AI features.

To remove them, **you must disable the "new" version of Acrobat Reader** and return to the classic version.

Select **Menu** in the top left corner

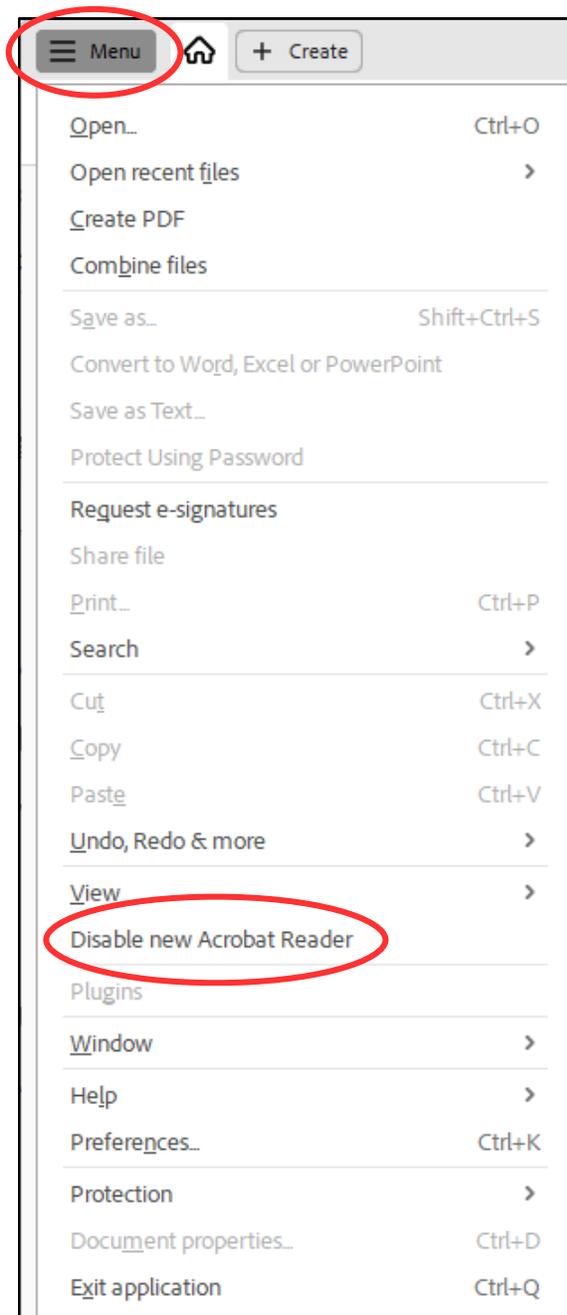

In the list that opens, select **Disable new Acrobat Reader**

You should see this pop-up:

In that pop-up, select **Restart**

The application will close, then re-open without the AI features included

## WHY AVOID AI?

Generative AI is a source of misinformation, and is rife with labor, environmental, and social concerns. It's being pushed by big technology companies through forced adoption by design.

Check out the other side of this sheet for organizing resources.
