

OH NO...DID THEY ADD AI TO THIS?

It happens more and more. You're using a familiar online tool and suddenly see new terms, symbols, and features pop up, often with vague and fantastical descriptions.

Here are some signs these new offerings might be AI:

Words to watch

| | |
|---------------|------------|
| magic | help me... |
| generate | ...write |
| summarize | ...edit |
| fix / enhance | ...create |
| beautify | ...build |

Suspicious symbols

◆ This is a universal symbol for "AI feature," often referred to as a "sparkle"

Why avoid AI?

Generative AI is being pushed by big technology companies through forced adoption. It is not just a source of misinfo, it's also rife with environmental, creative, and social concerns.
